

William Francis Salisbury, aka Bill, RPCV Nepal- (N-171; 91-93), died after a short illness, March 9, 2019 in Maryland surrounded by family and friends. Bill grew up in Connecticut the youngest of four sons in the Salisbury family. Bill loved life and had many opportunities for adventure throughout his career with Peace Corps, AmeriCorps and the US State Department. Bill's sense of humor and wit made him the master storyteller where he could 'hold court' at any dinner party (usually at his house where he was always a kind and generous host.) Bill was also a hard working professional who devoted endless hours in his work with Peace Corps in Nepal, Bangladesh and Burkina Faso and in Human Resources postings at the US embassies in Poland, Tajikistan, Georgia, Pakistan and Hungary. He was always warm, kind, inviting and full of life. We will miss his intoxicating smile, his love of life (and wine), his laugh and his passion for biking, his motorcycle and dancing with his friends from around the world. His spirit lives on in each of us.
