Ideas and Expectations from the Peace Corps Community

- Address systemic racism in the Volunteer experience — recruitment, service in the field, and back home.
 - Foster two-way exchange with host countries.
 - Create customized assignments to match needs with Volunteer skills.
 - Focus on climate change as a cross-sector initiative.
 - Revamp medical services to lengthen health coverage post-service.
 - Peace Corps must enable NPCA and affiliate groups to connect with Volunteers to enhance Third Goal impact.
 - Be intentional in creating systems to address mental health, racial injustices, and socioeconomic challenges for BIPOC Volunteers during and after service.
 - Expand federal noncompetitive eligibility (NCE) to three years for RPCVs.
- “Seize the moment and put forth a new vision for Peace Corps.”**
